

# Netflix clone project

## Project description

In this project, I have cloned the actual site of Netflix making it as close to the real site as possible.

Netflix, Inc. is an American subscription streaming service and production company. Launched on August 29, 1997, it offers a library of films and television series through distribution deals as well as its own productions, known as Netflix Originals.

## Approach

Resources for learning were obtained from the videos provided by stige, w3schools & Stack Overflow.

## Tech stack used

- HTML - made the structure and skeleton of the website
- CSS - used to style components and clone the site with utmost accuracy
- JS - used to manipulate elements like open dropdowns and add hover effects
- VScode - Code editor used to code with utmost efficiency
